Harmon C. McAllister, Ph.D.
Research Director
The Council For Tobacco Research-U.S.A., Inc.
900 Third Avenue
New York, N.Y. 10022

Dear Dr. McAllister,

It is with sincere appreciation that I thank you and The Council For Tobacco Research for their generous support of our program at the Winter Conference on Brain Research entitled "Brain Nicotinic Receptor Mediation of Tolerance and Dependence".

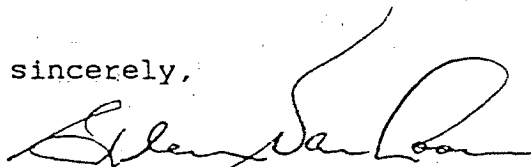

As I am sure you know participation in this program is very competitive, and it is indeed an honor for us to have been selected as a program for the 1989 WCBR. I believe that inclusion of scientists of the stature of Leo Abood, Ken Kellar and Jack Henningfield was a primary factor in the acceptance of this program. I believe that we will offer our colleagues at the WCBR an exciting program on the neuroscience of nicotine. I am sure your support of this program will be rewarded by the dissemination of an excellent program to the neuroscience community.

I have no control over the registration slots, and I request that you contact Dr. Anna N. Taylor, Department of Anatomy, UCLA School of Medicine, Los Angeles, CA 90024-1763 with regard to the possibility that a representative of your organization might attend the meeting.

Again thank you for your support.

With best regards.

Yours sincerely,

Glen R. Van Loon, M.D., Ph.D., F.C.R.P.(C)
Professor of Medicine and Pharmacology
